

## The Choice is Yours – Black, White, or Silver

Johns Manville now produces the most versatile line of Formaldehyde-free™ duct wrap insulation. With our brand new Microlite® Black PSK Duct Wrap, now you have the freedom to select the facing type and color that best suits the unique needs of your duct wrap application. Our duct wrap line is designed to optimize thermal control and give you the choice of catering to aesthetics when necessary. You can opt for aesthetics with White PSK or Black PSK, or target strictly function with Silver FSK. Each of our Microlite Duct Wrap products is made with the same, Formaldehyde-free™ insulation, making them all GREENGUARD® Gold certified.

- Matching white and black tape available
- Black and White PSK facings are ideal for aesthetic applications
- Avoid painting the insulation facing (which voids the UL warranty) by using Black or White PSK-faced duct wrap
- 0.02 perm rating on all three facings
- Formaldehyde-free™ duct wrap insulation
- GREENGUARD Gold Certified

Matching white and  
black tape also available
