

PITTSBURGH MACHINE – 20 GA STANDARD

(5 STATION)

The 20 Standard Pittsburgh machine is ideal for small to medium sized shops looking for a freestanding Pittsburgh machine with 20 Ga. capacity. The unique Flagler design features 3 separate piece shaft design (roll, shaft, gear) unlike the competitive machines that utilize one piece construction which results in higher repair costs. This machine features auxiliary shafts for optional tooling as well as an optional flanging attachment.

Work Height: 32-5/8"
