

Product Data Sheet

Black Out

Duct Liner Edge Coat

BLACK OUT/EDGE COAT

Features

- Quick and Easy to Use
- Reduces fraying of duct liner edge
- Fast Drying
- Coats cut edge to bring back factory edge performance

Description

Black Out is a fast drying edge coat that will bring the factory edge back to your cut duct liner.

Applications

After cutting the fiberglass duct liner in the field. Black Out coats the duct liner back to a factory edge. Coating the edge to prevent fraying of the fiberglass.

Product Usage

Shake well before using. Work on a clean, dry surface only. Hold can 6-8 inches from object. Apply thin coat over the edge and let dry. For optimal results, apply a second coating. Spray can upside down for two seconds to clear tip and valve when finished to avoid clogging.

Storage

Store in a cool, dry, and well ventilated area. Do not handle or store near open flame or other heat sources.
