PRODUCT BROCHURE

www.sumner.com

The **Specialized Fabrication Equipment Group** (in short: **S.F.E. Group**) was founded in 2019 after the merger of three world leading OEM's in the field of pipe fabrication tooling and machinery: B&B Pipe and Industrial Tools LLC (USA), Mathey Dearman Inc. (USA) and TAG Pipe Equipment Specialists (UK). In a time span of 5 years, another 4 renowned and market leading companies were acquired and added to the **S.F.E. Group** portfolio: Axxair (France, 2022), Magnatech (USA, 2023), Climax (USA, 2023) and SUMNER (USA, 2025).

The vision and philosophy of the **S.F.E. Group** is to offer globally a comprehensive innovative and cost-effective range of specialized fabrication, welding and machining equipment and derived rental solutions, for a wide range of applications within all critical industries, while optimizing performance, efficiency and safety.

Leveraging over 200 years of combined experience in engineering, manufacturing, and field applications, the **S.F.E. Group** is committed to driving innovation. Through continuous product development and strategic acquisitions, the **S.F.E. Group** is actively growing its portfolio and expanding its global presence to meet the demands of industries around the world. Currently, the **S.F.E. Group** consists of 12 complimentary brands, each supporting the others in delivering cutting-edge solutions.

With offices and warehousing on 5 continents, 400+ employees and more than 500 partnerships and distributors worldwide, **S.F.E. Group** prides itself on consistently offering the highest standards of both product quality and service locally to all its customers.

S.F.E. Group looks forward to welcoming you into its global network as a partner, distributor or end user customer and remains at your disposal at any time.

S.F.E. GROUP GLOBAL PRESENCE

SUMNER Material Lifts is a world leading brand in the material handling and construction industries, renowned for its innovative, durable, and user-friendly solutions. Founded in 1965 and now a part of the Specialized Fabrication Equipment Group (in short S.F.E. Group), **SUMNER Material Lifts** has built a global reputation for providing high-quality lifting equipment. Designed with safety and efficiency in mind, **SUMNER Material Lifts** products are widely used by professionals in mechanical contracting, plumbing, HVAC, welding, and electrical installation.

SUMNER Material Lifts' product line includes a broad range of lifting tools such as material lifts, duct lifts, Roust-A-Bouts, gantries, and heavy-duty hoists, all engineered to meet the demanding requirements of job sites around the world. All equipment is known for ease of use, robust construction, and industry-leading safety features, making it the preferred choice for both large-scale industrial projects and everyday construction needs.

With a long tradition of quality, reliability and value and a strong commitment to innovation and customer satisfaction, **SUMNER Material Lifts** continues to set the standard in lifting and material handling solutions.

In conjunction with all other S.F.E. Group portfolio's brands, **SUMNER Material Lifts** continues to lead the way in lifting and fabrication solutions, delivering tools that elevate the operator's standard of work.

SUMNER Material Lifts products are always nearby available within the S.F.E. Group global network and can be consulted on the dedicated website: www.SUMNER.com

The Series 2000 Material Lift is a heavy-duty material lift tailored for contractors who regularly handle wider and heavier loads. Ideal for construction and HVAC applications, this robust lift is built to accommodate loads from 650 - 1,000 lbs / 295 - 450 kg and reach heights ranging from 10 - 25 ft / 3.05 - 7.62 m. The Series 2000 features SUMNER Material Lifts commitment to safety and efficiency, with a comprehensive cable protection system and internal cable routing to reduce wear and potential hazards.

Portability is also a strong suit of this model. It can be disassembled quickly, making it ideal for contractors who frequently transition between job sites. The unit's design incorporates reversible forks, plunger pins for fast adjustments, and an integrated lifting eye, ensuring seamless usability and consistent safety. For contractors who demand a high-capacity, easy-to-transport lift that withstands tough environments, the Series 2000 is a trusted performer.

SPECIFICATIONS

- Handles loads from 650 - 1,000 lbs / 295 - 450 kg
- Lifting heights range from 10 - 25 ft / 3.05 - 7.62 m
- 360° cable guard for enhanced safety
- Reversible forks for maximum height flexibility
- Integrated lifting eye allows for aerial transport
- Plunger pins enable tool-free adjustments

Mast Hold Down Device (Part No. 783040)

The standard retaining bar secures the mobile base assembly during transport. Spring-loaded, it retracts and stores behind the mast when not in use.

Folding Forks

The forks fold easily by pushing the spring-loaded positioners and can be reversed to add height or flush-mount to the ceiling.

Ideal for Compact Storage, no need to worry about loose tools or accessories. The leg safety mechanism releases by pushing the spring-loaded positioners and locks into the storage position. The leg rollers allow for easy transport. The forks can also be removed using spring-loaded positioners.

The 2000 Series is designed for heavy materials and continuous operation.

This compact lift offers a strong mast design and an advanced cabling system. The shorter mast sections allow the 2000 model to pass through standard doors without tipping over. Its compact design fits perfectly into vehicles and requires little storage space
